

## **Project Vision – YMCA in the North End**

The YMCA of Greater Moncton is a registered charity committed to developing healthy individuals, families, and communities. Tasked with creating a vibrant and inclusive Community Centre in the heart of Moncton's North End, we will bring this dream to fruition while working collaboratively with local residents and the City of Moncton.

This exciting new satellite location will be a welcoming site for everyone – helping people of all ages, backgrounds, and abilities lead healthier, more active, and more connected lives. It will complement existing Y spaces while being progressive, unique, and innovative in nature. We will keep financial sustainability and growth potential top of mind so future generations can easily adapt and benefit. At the Y, everyone will have a strong sense of belonging at every single visit.
